Program Report

Program Name: Generic drug development process-Industrial Scenario

Resource Person (s): Mr.P.Y.Shanmuk

Formulation Scientist

Dr. Reddy's Laboratories-Hyderabad.

Date of Activity: 19/06/2019

Organised by: Institution Innovation Council

Venue: Bapatla College of Pharmacy

Objectives of program:

- This program's goal is to understand the generic drugs.
- The students can gain knowledge on conventional and latest techniques involved in the manufacturing process of generic drug formulation.
- Delegates can understand the importance of guidelines followed by the industry in the manufacture process.

Program Outcome:

- By this program the students learned the current technology involved in the manufacturing of drugs.
- The participants had got a profound knowledge on importance and requirement of generic drugs and their comparison between branded drugs.
- The students had got idea on the guidelines implemented in the standard operating procedure of manufacturing drugs as per the US FDA.
- The spokesperson shared knowledge to the students regarding the latest equipment used at industry level like tablet punching machine, packaging procedure and hygiene maintaining equipments.

Suven Pharmaceuticals LTD
Hyderabad

Organised by: BCOP Innovation Cell

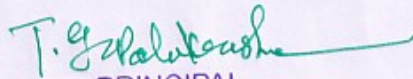

Venue: Bapatla College of Pharmacy

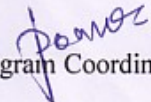

Objectives of program:

- The main objective of this webinar is to determine the importance of LCMS in the pharmaceutical Industry.
- The purpose of this programme is to provoke research work related to LCMS.
- Applications of LCMS.
- Motivate the fellow budding pharmacists towards research.

Program Outcome:

- Various research activities carried out by LCMS.
- Skill improvement on LCMS.
- Students got knowledge on the principles and working mechanism of LCMS along with the applications in industry.

Program Details

The Conference on Recent Advancements in Interdisciplinary Research was organized by Bapatla College of pharmacy in collaboration with university of Malaysia on 19-12-2019. Marine scientist was attended the session and interacted with the students. Aqua scientists shared their knowledge and view with students. The conference consists of keynote lectures and oral presentations. Researchers spoken on the latest developments and technical solutions in their recent multidisciplinary area. They mentioned that interdisciplinary area is always chosen for the research purpose. Various marine and fresh water sources are utilizing as medicines now a days. The most commercial spirulina is a marine algae which can be given as food for the astronauts. The marketed formulations containing vitamins, calcium and mineral sources are obtained from marine origin which can be an entrepreneur opportunity for students.
