Program Report

Name of the event : Mass Plantation
Date : 22/12/22
Venue : BCOP Premises

A mass plantation was organized by NSS cell of Bapatla College of Pharmacy to create awareness on the importance of planting trees among the students and the benefits of maintaining green cover in the campus and also surroundings. The Principal of the Institution addressed the students about the importance of green environment, how it reduces global warming and our duty to make the environment sustainable for future generations; he also explained the importance of growing the medicinal plants. Sri M. Srinivasa Rao, President of BES, Secretary and other management members have taken part in the program. The President of BES initiated the program by planting the medicinal plant in Medicinal garden. Later the Principal, Faculty and students got involved in plantation in medicinal garden as well as other places of the premises. The program was a grand success as there is great involvement of every individual of the college.

Bapatla College of Pharmacy has taken a step towards green environment and organized sapling plantation on 9th August at the College Premises. The Institute has taken utmost safety precautions against COVID 19 and organized the program. Few members of Management, Principal, Staff and few number of Students have taken active part in Plantation Program. The main purpose of the program is to create awareness among students the importance of planting trees and love towards mother nature. The Principal, Dr. TEGK Murthy addressed the gathering saying the importance of environmental protection, how it improves the air quality. A large number of saplings were planted in the College premises. An oath was taken by all to safeguard and water the plants planted by them as their sole responsibility.

The NSS Cell of Bapatla College of Pharmacy organized a Mass plantation drive as a green campus initiative. The main purpose of the campaign is to make students aware of importance of planting trees, its impact on environment and how it reduces global warming. It was conducted under the name "Vanam – Manam". The program started with the initiation by Sri Manam Nageswara Rao, Secretary of BES by planting a tree. He said that everyone should take it as a habit to plant trees at their homes also. Later, Principal of the College, Faculty and students also planted trees. The students have taken oath that its their responsibility to take care of that plant later also. The program was successfully done by taking necessary safety precautions against COVID 19.

With a vision to preserve the greenery of the environment, NSS unit of Bapatla College of Pharmacy has organized a mega tree plantation drive on 15 August 2018. After hoisting of National Flag in view of Independence Day Celebrations, the Management, Principal, Faculty and Students joined for plantation campaign. The main aim of the program is to aware students regarding environment and to know the benefits of the plants. The Program started by the initiation speech of Sri Muppalaneni Seshagiri Rao, President of BES, he said that plantation plays an important role in balancing nature. It also helps to reduce global warming, hence planting trees is very essential to keep our environment sustainable. Plants were planted by the Management members, Principal and Staff and Students also got actively involved in the program. The day filled everyone with lot of inspiration and joy due to Independence Day celebrations and also Plantation.

Bapatla College of Pharmacy has organized Plantation program in the premises on 18th August 2018 with a vision to make the environment clean and green with good quality of air which is not only healthy but also aesthetic. Medicinal plants offer many benefits and so to be grown in houses and colleges. The program was started by opening remarks of NSS Coordinator K. Poorna Chandra Rao who said the main purpose of the program. It is to create awareness about the importance of planting trees everywhere on the earth. The Principal initiated the program by planting a tree in the medicinal garden, later followed by faculty and students. The students were also reminded of their responsibility to take care of the plants everyday in leisure time. The program was of grand success with cheers on the faces of students, and satisfaction by contributing our services to the mother nature.
