Program Report

Program Name: Innovative Research trends in Pharmaceutical research

Date of Activity: 13/06/2020 to 15/06/2020

Speakers: 1. Dr. Venkat Kota

COO – Lupin Pharma, USA

2. Dr. Kishore J R Kanapuli

Chief Scientific Officer

Nexogenix Life Sciences, Hyderabad

3. Bhupesh Pratap

Senior Principal Scientist

Perrigo – R & D Company

Organised by: Department of Pharmaceutics

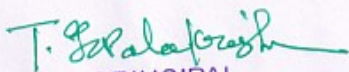

Venue: Bapatla College of Pharmacy

Objectives of program:

- The main objective of this webinar is to determine the importance of various novel techniques existing in the pharmaceutical Industry.
- Novel discoveries in cell therapy
- Learning of PBPK modelling in drug development.
- Artificial intelligence and its role in pharma industry.

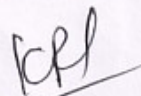

Program Outcome:

- This program speaker gives the valuable knowledge on role of robotic machineries in the mixing process and artificial intelligence provides the sterilised environment and access the operational procedures.
- By this participants can learned regarding the innovative treatments in the cell therapies which are highly developing branch.
- Importance of PBPK modelling and its parameters in the drug development process.

Program Details

A 3-day online international STTP on Innovative Research Trends in Pharmaceutical Industry, organised by Department of pharmaceuticals. The coordinator Dr. K Rajya Lakshmi was inaugurated the session by welcoming the speakers and management of Bapatla College of Pharmacy. The principal Dr. T.E. Gopala Krishna Murthy congratulated the attendees. The speakers shared their knowledge regarding various novel techniques came into existence now a days like artificial technology, python algorithms etc. Some of the novel treatment used for various chronic diseases includes cell therapy was introduced by the speaker. All the session went outstanding and participants gave a positive response.

Acharya Nagarjuna university-Nagarjuna nagar-Guntur-522510

Cordially welcomes you all for

**3-days online International STTP on
Innovative Research Trends in Pharmaceutical Industry
13th - 15th June 2020**

Programme Schedule

Day - 1

Dr. Venkat Kota
COO, Lupin pharma, USA

Topic : Application of Artificial Intelligence, Robotics and
Continuous Manufacturing process in Pharma Industry

Date : 13/06/2020 Time : 5:00pm

Day - 2

Dr. Kishore J.R. Kunapuli
Chief Scientific Officer,
NEXOGENIX LIFE SCIENCES, HYDERABAD

Topic : "CAR-T cell Therapy - Take a Cell but not a pill"

Activate Windows

Go to Settings to activate Windows.
Zoom

Program Name: Workshop on Design Thinking, Critical Thinking and Innovation design
Resource Person (s): Dr. R.Kishore
Data Scientist
Flipkart

Date of Activity: 23/09/2020.

Organised by: Department of Pharmaceutics

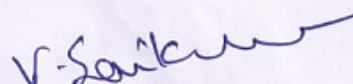

Venue: Bapatla College of Pharmacy

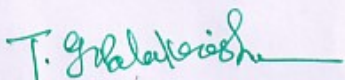

Objective of program:

To motivate students by design thinking with critical thinking and to overcome challenges with critical thinking.

Program Outcome:

The students were inspired how the design thinking solve the problems. They were motivated and taught how to solve problems and come up with innovative ideas using the thinking process.

Program Details

The conference was conducted on 23/09/2020 at Bapatla college of Pharmacy. The speaker Dr.R. Kishore was invited to college by the principal Dr. T.E Gopala Krishna Murthy and the IIC – President Dr. V.Sai Kishore in a gesture manner. This workshop aimed at motivating the students by blending design thinking with critical thinking and to foster innovation that deliver customer centric solutions. He gave guidance of how to overcome challenges with critical thinking and sparking the entrepreneurial spirit in the budding innovators by guiding them on how to convert their innovative ideas and emerge as successful entrepreneur. The speaker highlighted the challenges faced, and qualities of an entrepreneur and planning skills.

Program Report

Program Name: Designing Drugs for Corona Virus

Resource Person (s): 1. Prof K. Vijaya Raghavan
Principle Scientific Advisor
India
2. Dr. Anil Sahasrabhude
Chairman
AICTE

Date of Activity: 12/11/2020.

Organised by: Department of Pharmaceutics

Venue: Bapatla College of Pharmacy

Objective of program:

- To know the current research among the pharmaceutical drugs for most hazardous diseases particularly corona.

Program Outcome:

- The students were gained knowledge on the speed up of research by using various technologies.
- Techniques involved in the designing of drugs.
- Gaining of knowledge on microorganisms and their structures by using x- ray crystallography, docking and other analytical instruments.

Program Details

The session was conducted by IIC-BCOP under the supervision of Dr. V. Sai kishore. Students from final year B.Pharmacy and M.Pharmacy was attended the session and learned regarding the research techniques to study the biology of corona virus. The understanding of proteins coded in the virus can helpful to identify different number of drugs for the particular virus or bacteria. Vaccines manufacture can also be made once the pathogenic gene was identified. Various branches like bioinformatics, biotechnical research helpful in the identification of drugs once the key genes are identified. This session give a vast information that multidisiplinary components are very usefull in the drug process development.

Program Details

The Seminar was conducted on 27/11/2020 at Bapatla college of Pharmacy. The students and faculty of Bapatla College of Pharmacy was attended to the webinar on Bio Compatibility of Medical Devices & its uses. The speaker from sipra labs is well explained the current trends and development of biosensor devices. She also explained the laws and regulations behind the manufacturing of biosensor devices along with the mechanism of action includes how they are acting and its operative mechanism was clearly understood by the delegates attended the guest lecture. Most of the medical devices are mostly using now a days like insulin strips, antigen detection kits etc. This can well advance in future days and even bionic eyes, handling of physical activities also by artificial limbs. The session was successful and the students learned about the newer technology in biomedical device. Speaker also mentioned some of the screening methods to assess medical devices.

Program Details

The Seminar was conducted on 23/12/2020 at Bapatla college of Pharmacy. The students and faculty of Bapatla College of Pharmacy was attended to the webinar through online mode. The speaker from sipra labs is well explained the drug research through various insilico techniques. He also demonstrated the docking procedure step by step virtually. The speaker shared his knowledge on the various softwares used currently in the industry for the drug design process. As per the speaker view there are many numbers of drugs are coming out from the various process but among them only few drugs are gaining the interest remaining all are depleted form the study. With the help of insilico research study we can reduce gap in the research. Speaker was mentioned many number of softwares are available were there to evaluate the pharmacological activity, compatibility studies and BA/BE studies which plays a important role in the pharmaceutical research. With the help of the softwares financial burden is also decreasing for the sponsor. Even in the clinical trails many number of adverse drug reactions are also identifying in the humans.

Program Name: Motivation on Entrepreneurship

Resource Person (s): Dr. Nagesh
Psychologist

International Speaker

Date of Activity: 24/12/2020

Organised by: Institution Innovation Council

Venue: Bapatla College of Pharmacy

Objectives of program:

- This program's goal is to educate students about entrepreneurs and their psychological aspects.
- The students gain knowledge on thinking pattern of entrepreneurs.
- Participants will learn how to be stay strong to overcome the hurdles during any early stages.

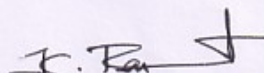

Program Outcome:

- By this program the students motivated and brainstorm to become an entrepreneur.
- The participant's interaction will facilitate improvement of punctuality and discipline is very important.
- The students had gained knowledge on positive attitude and how it facilitates the entrepreneurship.
- The spokesperson shared knowledge regarding the opportunities and technical aspects developing in India can improve extensive opportunities for youth of India.

The Seminar was conducted on 24/12/2020 at Bapatla college of Pharmacy by the spokes person Dr. Nagesh. All the pharmacy students and faculty was attended the oriented session. The spokes person explains the introduction to entrepreneur opportunities in India present scenario. He also mentioned various aspects related to psychology of entrepreneurs. He mentioned that entrepreneurs always thinking in a positive attitude and disciplinary fashion. They choose the different path of thinking rather than routine way. They are very stringent and always create the opportunities what they want. The speaker also says every student had to face the challenges in their life rather than depressed. He motivated the students struggle hard, keep patience and continuous effort will get success. Mr. K. Ranjith was acted as a coordinator for the program. He felicitated the chief guest after the session. The session went well smooth and vote of thanks was given by B.Sudheer Chowdary.

Program Report

Program Name: Practice to perfect 5s -An Innovative Concepts for healthy and protective working environment

Resource Person (s): R.Kishore

Chief Scientist

Date of Activity: 28/12/2020.

Organised by: Department of Pharmaceutics

Venue: Bapatla College of Pharmacy

Objectives of program:

- The objective of this programme to provide the knowledge about implementing, awareness and prevention of environment.
- Under the 5S philosophy, parts and tools are housed in a way that makes them easily accessible and easy to utilize.
- The 5S system drives companies to improve efforts aimed to eliminate waste from the manufacturing process and overall enhance a company's bottom line. This is done through improving products and services, and thus lowering costs.

Program Outcome:

- 5S refers to five steps – sort, set in order, shine, standardize and sustain (also known as the 5 pillars of a visual workplace).
- Understand what 5S is, how to implement it and communicate its benefits.
- Create efficient, standardised and safe environments and systems in the workplace and at home.
- Be able to identify problems and eliminate them.
- To know how to encourage a team to embrace workplace organisation.
- When implemented correctly, 5S can lead to improved productivity, quality, and safety in the workplace.

Program Report

Program Name : Drug designing and development: Insilco approaches for pharmacy professionals

Resource Person: P. Siva kumar

Associate Professor

Department of Pharmaceutical Chemistry

Gokula Krishna College of Pharmacy,

Sullurupeta, Nellore(Dt)

Date of Activity: 29/01/2021

Organised by: Department of Pharmaceutical Analysis

Venue: Bapatla College of Pharmacy

Objective of program:

- The objective of this program is to gain knowledge on role of insilico in drug development.
- Provides knowledge to students regarding various software applications used in the insilico screening of drugs.
- Docking parameters involved in insilico studies .

Program Outcome:

- Students gained knowledge on drawing of chemical structures by using chemdraw and chem sketch.
- Understanding how to select the ligand and receptor for the drug development process.
- Participants able to learn step wise process of docking selected ligand and receptor in the autodocking process.

Program Details

The program was conducted by Department of Pharmaceutical analysis in association with Gokul Krishna College of Pharmacy, sullurupeta, Nellore. Mr. B. Siva Kumar from department of pharmaceutical chemistry was visited the college and cordially welcomed by the pharmaceutical department HOD Mr. K. Ranjith. Mr. K. Ranjith addressed the speaker and students and gave brief bio of the speaker. Later on speaker Mr. P. Shiva kumar shared his knowledge on the insilico techniques involved in the drug development process. He explained various insilico tools and its importance involved in the research. Softwares like chemdraw and chem. Sketch and their process is explained by the speaker. About 40 students attended the session. Finally the vote of thanks was given by the Mr. K. Poorna chandra rao. The session was went well informative and successful.

Program Report

Program Name: Importance of preclinical data in clinical trial protocol

Resource Person (s): Dr. B.Dinesh Kumar

Scientific Advisor

Sipra Labs

Date of Activity: 16/02/2021

Organised by: Department of Pharmacology.

Venue: Bapatla College of Pharmacy

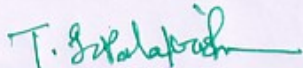

Objectives of program:

- This program's objective is to share knowledge about importance of preclinical trails and its data role in making of clinical protocols.
- Awareness on preclinical procedures and its evaluation protocols at the industry level.
- Various tests evaluated to check the toxicity of novel compounds.

Program Outcome:

- The spokesperson provided knowledge to the students on the preclinical studies.
- The spokesperson's given the importance of various toxic studies conducted in the basic research level.
- The students were acquired knowledge on how to use the available data obtained in the preclinical studies for the clinical trial purpose.

Program Details

The Seminar was conducted on 16/02/2020 at Bapatla college of Pharmacy. The students and faculty of Bapatla College of Pharmacy was attended to the webinar on Importance of preclinical data in clinical trial protocol. The principal Dr.T.E.Gopala Krishna Murthy addressed the speaker to the audience and make warm welcome for the webinar. The speaker from Dr.B Dinesh Kumar sipra labs is well explained the role of preclinical trials in clinical research . He also gave a detailed structure on the dosage forms, maintenance of animal house, and its procedures involved in it. He also gave current trends in the preclinical research with examples. Key note was given by Dr. V.Sai kishore at the end of the session .

Program Report

Program Name: Basic concepts of research in Phytochemistry.

Resource Person (s): Dr. Muthyala Murali Krishna

Professor

Andhra University of Pharmaceutical Sciences

Date of Activity: 26/02/2021

Organised by: Bapatla College of Pharmacy

Venue: Bapatla College of Pharmacy

Objectives of program:

- The purpose of this programme is to provide knowledge on concepts of phytochemistry.
- Students can acquire knowledge on the various bioactive molecules derived from plant sources.
- Participants can learn about the functional groups, reacting molecules present in the chemical constituent.
- Participants also got awareness on how to get the novel molecules by changing the current existing molecules on various online platforms like chimera and chem draw.

Program Outcome:

- The spokesperson provided his valuable knowledge to the students regarding the chemical groups in the bioactive molecules.
- The spokesperson's explains functional group identification and other groups present in the chemical constituents.
- The students were given knowledge regarding self improvement in the knowledge as per the industrial needs and beliefs towards the achievement of a defined purpose/goal.
- He also mentioned the importance and requirement of pharmacy profession in the developed countries like UK and USA etc.

Program Details

This program was conducted on 26/02/2022 at Bapatla college of Pharmacy. At first the chief guest was cordially invited by Mr. K. Ranjith HOD of Department of Pharmaceutical Analysis of Bapatla College of Pharmacy. The coordinator welcomes the participants of today's session. The speaker gave a lecture on research methods involved in phytochemistry. He mentioned the recent advanced techniques involved in the extraction techniques and insilico techniques. He explains the protein types and nature involved in the receptors and the interactions between ligand and receptor. He also mentioned various forces and bonding involved in the interactions. The students gained knowledge on basic research in the phytochemistry particularly natural compounds with examples. The session was informative and vote of thanks was given by Mrs. P. Madhulatha.

Program Name: From your Ph.D./Masters Thesis to a Start-Up

Resource Person (s): 1. Dr.Anand Deshpande,

Founder and CMD, Persistent Systems.

2. Prof. Anil D Sahasrabudhe

Chairman of All India Council for Technical Education (AICTE)

Date of Activity: 24/04/2021

Organised by: Institution Innovation Council

Venue: Bapatla College of Pharmacy

Objectives of program:

- This program's goal is to educate academicians and students regarding the higher education targets.
- Conversion of project works into start up.
- Stepping stones for the start up at early age shows wide variety of opportunities.

Program Outcome:

- By this program the students learned laid fundamental step for entrepreneurship.
- The participants had got a profound knowledge on choosing of project work which can be lead to startup in future.
- The students had gained knowledge on accessing of community problems to focus on solving procedures .
- The spokesperson exemplified situations to the students who got sponsorship and support from many companies during their college level.

Program Details

The program was organised by the Dr.V. Sai Kishore – IIC President BCOP at Bapatla College of Pharmacy. The speaker addressed the attendees and shared his valuable knowledge. As per the speaker view the goals of the students should be futuristic and always had a community benefit. Every student must think about the community problems which can get an innovative solution leads to entrepreneurship in future. He also mentioned that students always develop a habit of learning the needs of surrounding society. Before stating the project work the students must focus on the problems surrounding them and develop some ideas regarding that. This will enhance the possibilities of entrepreneurship. Not only from IIT's even a small institution student can develop an innovative work or thought based on his or her minimum facilities which will have higher value. Before planning any project care should be taken to continue as a start up. Session was successfully conducted and participants are self motivated.
