REPORT

Name of the Event	International Chess Day
Date:	20-07-2022
Event	Chess Competition

International Chess Day is celebrated on July 20. Chess was invented in India in the fifth century. It was named as "Chaturanga". On July 20, 2022, Bapatla College of Pharmacy celebrated **International Chess Day**.

Chess is a board game played with two players. It is a square board, made up of 64 smaller squares, with eight squares on each side. Each player starts with sixteen coins: eight pawns, two knights, two bishops, two rooks, one queen, and one king.

The player with white coins always will make the first move. It is a strategy board game, during the game the two opponents take turns to move one of their pieces to a different square of the board. If the player whose king is in danger cannot play any other moves to save the king, it is checkmate, and the player loses the game.

On this event chess competition was conducted. By following all the strict rules and regulations the winners and runners were given prizes and all the participants were given participation certificates.

Bapatla College of Pharmacy recognized as one of the most significant festivals for Indians, Sankranti holds immense physical and spiritual importance. It is a time when farmers celebrate the success of their harvest, expressing gratitude to the Sun, Earth, and cattle for their abundant blessings. Additionally, Sankranti marks the end of the winter season and the commencement of the vibrant and joyful spring.

The college campus transformed into a colourful spectacle as students adorned in traditional attire participated in various activities, decorating the premises with vibrant Rangoli. The entire college radiated with the vibrant hues of the Rangolies, each uniquely designed by the students, with "Gobemmas" taking centre stage in the Rangoli designs.

In the spirit of the "Sankranti Sambaralu" celebrations, the college organized competitions in the student category, recognizing and announcing prizes to the winners and runners.
